Requirements:
24V DC
1A Max
USB

Requirements:
24V DC
1.25A Max + Over-current prot.
USB

Requirements:
5V + 20mA per driver
24V DC + 48mA per driver

Requirements:
12V + 0.33A/Motor + 30mA idle
Switches on 5V + 20mA each

Requirements:
5V + Current dependent on whether anything is powered from it. In our case the usb hub does not power anything and is Powered from the PC
